PROFESSIONAL SUMMARY

Cybersecurity-focused Information Technology student with hands-on experience developing web and Android applications, conducting penetration testing, and building secure software solutions. Passionate about secure software development, problem solving, and continuously learning new technologies.

TECHNICAL SKILLS

Programming: HTML, CSS, PHP, Python, C#, C++, MySQL, Kotlin, Javascript

Frameworks & Tools: CodeIgniter 4, React, WordPress, Android Studio, Bootstrap, jQuery, AJAX, Git/GitHub

Cybersecurity: Kali Linux, VirtualBox, MITMProxy

Other: Microsoft Office, Google Workspace, Photoshop, Canva, DaVinci Resolve

SELECTED PROJECTS

Gabai: Android Parental Control Application — Pentester & Front-End Developer | Apr – July 2026

- Developed an Android parental control application featuring QR-based device pairing, screen-time management, activity monitoring, and content filtering.
- Performed penetration testing using MITMProxy to evaluate application security and validate SSL pinning implementation against man-in-the-middle attacks.
- Designed user interfaces and contributed to application architecture, testing, and documentation.

Voucher Management System – City Government of Biñan — Full-Stack Developer Intern | Apr – July 2026

- Developed a web-based voucher management system to streamline student voucher processing during internship.
- Implemented CRUD modules, voucher generation, dynamic signatories, archive functionality, and audit logging using CodeIgniter 4, PHP, MySQL, Bootstrap, jQuery, and AJAX.
- Collaborated with the development team using Git while testing, debugging, and implementing new features.

Thrifthroat E-commerce Website — Web Developer | Apr – May 2025

- Built the frontend of a thrift shop website using React.
- Implemented product browsing, filtering, responsive layouts, and SEO-friendly content.

EDUCATION

Mapúa Malayan Colleges Laguna

Bachelor of Science in Information Technology

Major in Cybersecurity | 2022 – 2026 | GWA: 1.80
